Hi Matt. I should first apologize for not introducing myself when I was down in Seattle for the BLM workshop. Sounds like you mostly work with WA issues but we're happy to have you involved in our efforts as well.

I think the best way for you to keep track of where Alaska is at on HHC- and so you can look at things at your leisure is to work off the websites:

<http://dec.alaska.gov/water/FCWQS/index.html>: General page about the process

<http://dec.alaska.gov/water/FCWQS/HumanHealthCriteriaTechWG.html>: Tech. Workgroup Page

One thing that hasn't been posted yet is the final notes from Meeting #1 so I've attached them here.

There's no doubt in my mind this is going to take some time. Alaska can be an awfully big place with some unique concerns. Since you're closer to the issues in WA and ID, I'm very willing to see and hear any feedback you may have on the direction of those efforts. No surprises, right?

Let me know if you have any questions or concerns.

Thx.

Hi Brock,

Sorry I wasn't able to attend the technical workgroup meeting earlier today. Sounds like Lon was able to attend as well as Bill and Angela for parts of the call. I'd love to see the presentation if you don't mind sending it when you have a chance. Is there a schedule for future technical workgroup meetings?

Thanks,

Matthew Szelag | Water Quality Standards Coordinator

Sounds great. No pressure- he can always view the presentation afterward and ask me all the questions he wants.

Hi Brock,

Matt is scheduled to return to the office tomorrow so I'm assuming he will participate. I will ask him to confirm in the morning. Thanks.

Angela Chung
